

Domestic

3500

 **KS GROUP**  
STEAM CLEANERS DIVISION

# 3500

Model 3500 is a mixed, domestic cleaning, hygiene and sterilisation system for vacuuming solids material and liquids and for generating dry, powerful steam. Our mixed system cleans and perfumes every room, making your home fresh and scented.

Numerous standard and optional accessories mean that "mod. 3500" satisfies all your needs: cleaning floors, carpets, all the kinds of windows, bathrooms with all its details, kitchens wash – basin and ovens, tiles, plant cleaning and your car all in- depth.

Mod. 3500 does not need any chemical products – it only uses water from the tap. Using steam is an effective and environmentally friendly method of cleaning hard surfaces. This steamer is light and versatile, easily used by all staff also thanks to its easy to handle trolley.

## Standard ACCESSORIES

### 3500

Description

Steam cleaner with continuous flow, vacuum (wet and dry) with water filter

|  |                           |
|--|---------------------------|
| Colour   | red/blue/dark grey/silver |
| Detergent Tank capacity                          | --                        |
| Detergent tank - level alarm                     | --                        |
| Detergent injection quantity                     | --                        |
| Water injection quantity                         | --                        |
| Pressure (bar) (100V-120V-230V)                  | 5 - 5 - 5                 |
| Voltage (100V-120V-230V)                         | 60Hz - 60Hz - 50Hz        |
| Total Power Consumption (W) (100V-120V-230V)     | 2350 - 2750 - 3200        |
| Boiler Power Consumption (W) (100V-120V-230V)    | 1350 - 1750 - 2200        |
| Iron Power Consumption (W) (100V-120V-230V)      | -- -- 800                 |
| Vac Motor Power Consumption (W) (100V-120V-230V) | 1000 - 1000 - 1000        |
| Boiler material                                  | Stainless Steel AISI 304  |
| Boiler volume (l) (100V-120V-230V)               | 1,6                       |
| Tank capacity (l)                                | 1,3                       |
| Min. Waste Tank level                            | 0,3                       |
| Waste tank capacity (l)                          | 1,1                       |
| Vac Motor suction power (Kpa) (100V-120V-230V)   | 17 - 18 - 19              |
| Steam production                                 | continuous flow           |
| Boiler Steam temperature (100V-120V-230V)        | 151°C                     |
| Water pump power (100V-120V-230V)                | 55 W - 41 W - 48 W        |
| Water level alarm                                | visual and acoustic       |
| Pressure alarm                                   | visual                    |
| Low tension voltage on handgrip                  | 9 V                       |
| Heating time (minutes) (100V-120V-230V)          | 6/7 - 6 - 4               |
| Power cable (m) (100V-120V-230V)                 | 4 - 5 - 7                 |
| Steam regulation on steam hose                   | yes                       |
| Dimensions (LxWXH)                               | 510mm X 370mm X H.370mm   |
| Net weight (kg)                                  | 11,60 Kg                  |
| Certification Reached                            | CE                        |
| Certification on work (100V-120V-230V)           | GS-Nemko+IPX4             |
| Warranty (year) (100V-120V-230V)                 | 1 - 1 - 2                 |
